

Establishment—number of healthcare-associated Methicillin-sensitive Staphylococcus aureus (MSSA) bloodstream infection patient episodes

Metadata item type: Data Element Concept
METEOR identifier: 751496
Registration status:

- [Health](#), Standard 10/06/2022

Definition: The number of [healthcare-associated Methicillin-sensitive Staphylococcus aureus \(MSSA\) bloodstream infection patient episodes](#), attributed to care provided by the hospital, reported during a specified reference period.

Object Class attributes

Identifying and definitional attributes

Object class: [Establishment](#)
Definition: Institutions, organisations or the community from which health services are provided. The term establishment covers conventional health establishments and also organisations which may provide services in the community.
Specialisation of: [Organisation](#)

Source and reference attributes

Origin: National Health Data Committee

Property attributes

Identifying and definitional attributes

Property: [Number of healthcare-associated Methicillin-sensitive Staphylococcus aureus \(MSSA\) bloodstream infection patient episodes](#)
Definition: A count of [healthcare-associated Methicillin-sensitive Staphylococcus aureus \(MSSA\) bloodstream infection patient episodes](#) reported during a specified reference period.
Property group: [Illness and/or Injury event](#)

Source and reference attributes

Reference documents: ACSQHC (Australian Commission on Safety and Quality in Health Care) 2021. Implementation Guide for the Surveillance of Staphylococcus aureus bloodstream infection. Sydney: ACSQHC, viewed 10 February 2022
