Collection and usage attributes

Guide for use:	Review information on the person's health condition(s) that is provided by the person, their representative, the referrer (such as a GP or other health professional), their case notes or other similar source. Document the health condition or conditions that have an impact on the person's activities of daily living or social participation.

In instances that the person does not have any health condition that have an impact on their activities of daily living or social participation, select 'no health conditions present'. |

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Revision status:	ICD-10-AM Twelfth Edition was developed by the Independent Hospital Pricing Authority (IHPA) using the *Governance framework for the development of the admitted care classifications - ICD-10-AM/ACHI/ACS Twelfth Edition and AR-DRG Version 11.0* (December 2020). The Framework outlines the classification development and approval process, the guiding principles and classification products that are the result of the classification development cycle.

Relational attributes

Data elements implementing this value domain:	Aged care assessment—health condition reported, code (ICD-10-AM 12th edition) ANN{.N[N]} Aged Care, Standard 30/06/2023

Classification scheme attributes

Classification scheme:	International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification Twelfth edition
Synonymous names:	ICD-10-AM Twelfth edn; ICD-10-AM 12th edn
METEOR identifier:	746656
Definition:	A statistical health classification of diseases, injuries and related health problems.

Registration status:	<u>Health</u>, Standard 20/10/2021
	<u>Aged Care</u>, Standard 30/06/2023
	<u>Tasmanian Health</u>, Standard 17/10/2023
Classification structure:	ICD-10-AM is comprised of:

- Tabular List of Diseases - contains core three character codes with some expansion to four and five character codes. The Morphology of neoplasms are specified in an appendix.
- Alphabetic Index of Diseases - consists of three sections: Section I is the index of diseases, syndromes, pathological conditions, injuries, signs, symptoms, problems and other reasons for contact with health services. Section II is the index of external causes of injury. The terms included here are not medical diagnoses but descriptions of the circumstances in which the violence occurred. Section III is the index of drugs and other chemical substances giving rise to poisoning or other adverse effects (also known as the Table of drugs and chemicals).
