Registration status:	Health , Standard 06/12/2023
DSS type:	Data Set Specification (DSS)
Scope:	The Alcohol and other drug treatment services national best endeavours data set (NBEDS) collects and reports data nationally on a best endeavours basis. The NBEDS covers: Publicly funded government and non-government agencies providing alcohol and/or drug treatment services. This includes community-based ambulatory services and outpatient services. The following services are currently not included in the coverage: • services based in prisons and other correctional institutions; • agencies that provide primarily accommodation or overnight stays such as 'sobering-up shelters' and 'half-way houses'; • agencies that provide services concerned primarily with health promotion; • needle and syringe programs; • agencies whose sole function is to provide prescribing and/or dosing of methadone; and • acute care and psychiatric hospitals, or alcohol and drug treatment units that report to the Admitted patient care NMDS and do not provide treatment to non-admitted patients. Clients who are on a methadone maintenance program may be included in the collection where they also receive other types of treatment.

Collection and usage attributes

Statistical unit:	Completed treatment episodes for clients who participate in a treatment type as specified in the data element Main treatment type for alcohol and other drugs .
Collection methods:	<i>Jurisdictional reporting requirements</i> Data to be reported in each agency on completed treatment episode and then forwarded to state/territory authorities for collation. <i>National reporting requirements</i> State and territory health authorities provide the data to the Australian Institute of Health and Welfare (AIHW) for national collation, on an annual basis. <i>Periods for which data are collected and nationally collated</i> Financial years ending 30 June each year.
