# Address—statistical area, level 3 (SA3) code (ASGS edition 3) NNNNN

## Identifying and definitional attributes

Metadata item type: Data Element

**Short name:** Statistical area level 3 (SA3)

Synonymous names: SA3

METEOR identifier: 776952

Registration status: Aged Care, Standard 30/06/2023

**Definition:** A designated region representing a standardised regional breakup of Australia, as

represented by a code.

Data Element Concept: Address—statistical area

Value Domain: Statistical Area Level 3 (SA3) code (ASGS Edition 3) NNNNN

## Value domain attributes

## Representational attributes

Classification scheme: Australian Statistical Geography Standard Edition 3

Representation class: Code

Data type: String

Format: NNNNN

Maximum character length: 5

# Collection and usage attributes

**Guide for use:** SA3 coding structure:

An SA3 is identifiable by a 5-digit fully hierarchical code. The SA3 identifier is a 2-digit code, assigned within a Statistical area level 4 (SA4). An SA3 code is only unique within a state/territory if it is preceded by the state/territory identifier.

For example:

State/territory	SA4	SA3
N	NN	NN

Comments: Statistical Areas Level 3 (SA3) are geographical areas built from whole Statistical

> Areas Level 2 (SA2). They have been designed for the output of regional data, including the 2021 Census of Population and Housing data. SA3s create a standard framework for the analysis of ABS data at the regional level through clustering groups of SA2s that have similar regional characteristics. Whole SA3s

aggregate to form Statistical Areas Level 4 (SA4).

SA3s generally have a population of between 30,000 and 130,000 people. However, some SA3s have populations above 130,000 or below 30,000. There are 359 spatial SA3 regions covering the whole of Australia without gaps or overlaps. These include 19 non-spatial SA3 special-purpose codes comprising Migratory-Offshore-Shipping, No Usual Address codes for each State and Territory, and a new Outside Australia code.

The Other Territories of Jervis Bay, Cocos (Keeling) Islands, Christmas Island, and Norfolk Island are each represented by an SA3 in the Australian Statistical Geography Standard (ASGS) Edition 3.
