In the ASIDD this data element records the date of intervention for the injury. In many cases, it will be the same as the date of injury (particularly for acute and severe injuries). This may not necessarily be so, however, if the injured person delays seeking intervention for their injury.

For data consistency, it should be checked that the [Intervention—presentation date, DDMMYYYY](#) is not recorded as occurring before the [Injury event—injury date, DDMMYYYY](#).
