<b>Data type:</b>	String
<b>Format:</b>	X[X(499)]
<b>Maximum character length:</b>	500

### Source and reference attributes

**Submitting organisation:** Australian Institute of Health and Welfare

### Data element attributes

### Collection and usage attributes

**Collection methods:** The use of diagnosis as text is useful as a back up when there may be a mistake in the recording of the body part or nature of the injury. The text description will help to verify the accuracy of the information.
