Implementation in Data Set	Australian Sports Injury Data Dictionary
Specifications:	Australian Institute of Health and Welfare , Recorded 09/08/2023 DSS specific information:

In the ASIDD this data element collects the date on which the injury record is made. It is not necessarily the same as the date of injury. For example, a person may not attend a sports medicine clinic for treatment of their injury until days after the injury occurred. This date can be cross referenced to the source of record date of injury.
