# Changelog - 27th September 2023

Released 27-09-2023

## Summary of updates:

- Data Set Specifications: Operational Specifications mode!
- Improvements to the rendering and download options provided for metadata.
- Supporting items now provides you the options to download from.
- Inclusion of a "Limit relational attributes" download option, to reduce the size of downloads and only show relevant relations to the item being downloaded.
- More contextual help across the site
- Developers and Registration Authorities can create Files and Images for reuse.  
(Publish only available to Registration Authorities and METEOR Admins)

(Site Version 1.1.20230926.6)
