First Nations-specific primary health care: PI03a- Number of First Nations regular clients who have a current completed Aboriginal and Torres Strait Islander peoples health assessment, December 2023

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	PI03a-Number of First Nations regular clients who have a current completed Aboriginal and Torres Strait Islander peoples health assessment, December 2023
METEOR identifier:	787947
Registration status:	Indigenous , Standard 25/02/2024
Description:	<p>Number of First Nations regular clients who had an Aboriginal and Torres Strait Islander peoples health assessment completed within the:</p> <ul style="list-style-type: none">• previous 12 months for ages 0–14• previous 24 months for ages 15 and over.
Rationale:	The evidence for screening well people for asymptomatic disease is well established for a specified number of conditions. Screening detects the disease at an earlier stage, and this allows good clinical management with the aim of reducing and preventing complications. Health assessments indicate quality of primary health care services, with a focus on health promotion and prevention.
Indicator set:	Aboriginal and Torres Strait Islander specific primary health care national key performance indicators December 2023 Indigenous , Standard 25/02/2024

Collection and usage attributes

Population group age to:	65 years and over.
Computation description:	<p>Presented as a number.</p> <p>Count of First Nations regular clients who had a current completed Aboriginal and Torres Strait Islander peoples health assessment.</p> <p>Count is of people, not assessments.</p> <p>Consider only the most recent assessment.</p> <p>Aboriginal and Torres Strait Islander peoples health assessment: A health assessment specifically available to all people of Aboriginal and Torres Strait Islander descent which can be used for health assessments across the age spectrum. The health assessment includes the assessment of a patient's physical health, and psychological and social well-being. It also assesses whether preventive health care and education should be offered to the patient, to improve that patient's health and well-being. It includes Medicare Benefits Scheme (MBS) rebated Aboriginal and Torres Strait Islander peoples health assessments (MBS items: 715; 228; 92004; or 92011).</p> <p>For ages 0–14: an Aboriginal and Torres Strait Islander peoples health assessment is counted if it was completed within the previous 12 months.</p> <p>For ages 15+: an Aboriginal and Torres Strait Islander peoples health assessment is counted if it was completed within the previous 24 months.</p>

Computation: Numerator only.

Numerator: Calculation A:
 Number of First Nations regular clients who had a current completed in-person MBS-rebated Aboriginal and Torres Strait Islander peoples health assessment (MBS items: 715 or 228).

Calculation B:
 Number of First Nations regular clients who had a current completed Telehealth MBS-rebated Aboriginal and Torres Strait Islander peoples health assessment (MBS items: 92004 or 92011).
